The French Financial Markets Authority (Autorité des marchés financiers - AMF) is responsible for supervising Ofi Invest Asset Management in relation to this Key Information Document.
 Ofi Invest Asset Management is authorised (under no. GP-92-12) and regulated by the AMF.

This PRIIPS is authorised for marketing in Italy and Spain, and regulated by the Italian Companies and Exchange Commission (CONSOB) and the Spanish National Securities Market Commission (CNMV).

Date of production of the KID: 29/11/2023

What is this product?

Type: Undertaking for Collective Investment in Transferable Securities (UCITS) under French law, created in the form of an Investment Company with Variable Capital (SICAV).

Term: There is no maturity date for this product, although it was created with a term of 99 years. It may be liquidated or merged with another fund under the conditions set out in the Sub-Fund's regulations.

Objectives: This key information document only sets out the objectives of the Ofi Invest ESG Euro Equity Smart Beta sub-fund of the Global SICAV fund.
 As the assets and liabilities of the SICAV's sub-funds are segregated, investors in each sub-fund cannot be affected by sub-funds to which they have not subscribed. Investors may not trade their shares in one sub-fund for shares in another sub-fund.

The Sub-Fund's management objective is to outperform the Euro Stoxx Net Dividends Reinvested index over the recommended holding period, by adopting an SRI approach.

The Sub-Fund's investment universe is defined by all of the EURO STOXX index's components. Using a dynamic allocation, the manager invests in the securities that make up the index for their universe without seeking to apply the same weighting to each security in their index, however. The Sub-Fund will mainly invest (90% of its Net Assets) in the eurozone, with no constraints on sector allocation.

Based on its investment universe, the manager makes quarterly allocations, or as required, depending on market conditions, sector allocations, based on the volatility of each composite sector and their connected relationships, in order to balance out their contributions to the overall risk (financial criterion) (If the composition of the benchmark universe changes between two quarterly rebalancings, the management team reserves the right, acting in the interest of unitholders, either to keep the securities until the next quarterly rebalancing, or sell them by temporarily rebalancing the portfolio, as permitted by the management process).

Alongside the financial analysis, as part of their study, the manager also analyses non-financial criteria in order to commit to a "Socially Responsible Investment" (SRI) selection of portfolio companies. The non-financial analysis or rating carried out will cover at least 90% minimum of the portfolio's securities (as a percentage of the mutual fund's net assets, excluding cash).

The manager applies an SRI filter to the components in each sector, so that only the top two thirds of companies with the best SRI scores for their sector, as established by the SRI team for the OFI Group, are kept (non-financial criterion).

Finally, each security is allocated sector by sector on a discretionary basis, within the constraints of the initial sector allocation (financial criterion).

The Sub-Fund may invest in financial futures or options traded on regulated and organised markets (French, foreign and/or over-the-counter). In the process, the manager may take positions with a view to hedging the portfolio against or exposing the portfolio to, on a discretionary basis, equity risks by using instruments such as Futures and Forwards on equity and equity indices, Options on equity and equity indices,

and Swaps on equity and equity indices. The portfolio's overall exposure should not be more than 100%.

Benchmark index: The Sub-Fund's performance can be compared with the EURO index's performance. The EURO STOXX Index is the subset of the most liquid names in the STOXX Europe 600 Index. With a variable number of components (around 300), the index represents large-, mid- and small-cap companies in eurozone countries: Austria, Belgium, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal and Spain

Subscription and redemption procedures: Investors may subscribe to their shares, either as an amount or as a number of shares, and redeem their shares, as a number of shares, on request, on each valuation day, from IZNES (directly registered shares) and from Société Générale (by delegation by the Management Company for managed bearer or registered shares). Subscription and redemption requests are centralised on each valuation day up to 12:00 pm and are executed based on the next net asset value. The corresponding payments are made on the second non-holiday trading day following the net asset value date applied. For subscriptions or redemptions that go through another institution, additional time for routing these orders is required for instructions to be processed. The net asset value is calculated on each non-holiday trading day in Paris and Frankfurt, and is dated that same day. However, on the last day of the year, if the Paris or Frankfurt stock exchange is closed, a net asset value will be calculated using the last known prices, but it will not be used as a basis for subscriptions/redemptions.

Intended retail investors: This I share class in the Sub-Fund is intended for all subscribers (institutional customers) with a minimum initial subscription amount of €500,000, who are looking to invest on eurozone share markets using a dynamic allocation. This investment is recommended for potential investors who are seeking an investment horizon of at least five years. Capital is not guaranteed for investors, who should be able to bear losses equal to their total investment in the Sub-Fund. The Sub-Fund's shares are not available for subscription by US Persons (see the "Intended subscribers and profile of the typical investor" section in the prospectus). For I Shares, each year, the Management Company decides on how profits will be allocated and may decide on accumulation or full or partial distribution.

Recommendation: the recommended holding period is five years. This Sub-Fund may not be suitable for investors who plan to withdraw their contribution before five years have elapsed.

Depositary: SOCIETE GENERALE

Further information (prospectus, annual report and the half-yearly report), along with information on other share classes, is available free of charge, in French, at the address below. This information may also be sent by post within one week on written request from the investor sent to:

Ofi Invest Asset Management
 Direction Juridique
 22 Rue Vernier - 75017 Paris -
 France

The Sub-Fund's net asset value is available on the AMF website (www.amf-france.org) and on the Management Company's website (www.ofi-invest-am.com).

What are the risks and what could I get in return?

Summary Risk Indicator:

! The risk indicator assumes you keep the product for the recommended holding period. The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class; in other words, the potential losses from future performance of the product are medium, and if market conditions were to deteriorate, it is unlikely that our capacity to pay you would be affected. This product does not expose you to any additional financial obligations or liabilities. This product does not include any protection from future market performance, so you could lose some or all of your investment.

Other materially relevant risks not included in the Summary Risk Indicator are:

- Credit risk: the issuer of a debt security held by the Sub-Fund is no longer able to make the coupon payments or repay the capital.
- Liquidity risk: the potential major impact on asset prices when a financial market is unable to absorb transaction volumes.
- Counterparty risk: the investor is exposed to the risk of a counterparty defaulting or being unable to meet its contractual obligations as part of an over-the-counter transaction.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over a one-year period and over the recommended investment period. They are calculated based on a past performance record of at least ten years. If the past performance record is not long enough, it will be supplemented with assumptions used by the Management Company. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Example Investment: €10,000		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€1,760	€1,800
	Average return each year	-82.41%	-29.04%
Unfavourable	What you might get back after costs	€7,930	€8,720
	Average return each year	-20.74%	-2.70%
Moderate	What you might get back after costs	€10,340	€13,180
	Average return each year	3.44%	5.68%
Favourable	What you might get back after costs	€14,130	€16,030
	Average return each year	41.29%	9.90%

The scenarios are based on an investment (compared to historical net asset values) made:

- between 31/12/2021 and 31/07/2023 for the unfavourable scenario;
- between 28/02/2017 and 28/02/2022 for the moderate scenario;
- between 30/06/2016 and 30/06/2021 for the favourable scenario.

What happens if the PMC is unable to pay out?

The Sub-Fund is a collective financial instrument investment and deposit vehicle, which is separate from the Management Company. Should there be a default by the Management Company, the Sub-Fund assets held by the depositary will not be affected. Should there be a default by the depositary, the risk of loss of the Sub-Fund is mitigated as a result of the depositary's assets being segregated by law from the Sub-Fund's assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- €10,000 is invested;
- In the first year you would get back the amount that you invested (0% annual return);
- For the other holding periods the product performs as shown in the moderate scenario.

Costs over time (for an investment of €10,000):

	If you exit after 1 year	If you exit after 5 years
Total costs	€226	€993
Annual cost impact (*)	2.26%	1.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 7.18% before costs and 5.68% after costs.

Composition of Costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.0% maximum of the amount you pay in when entering this investment. This is the maximum amount that may be deducted from your capital before it is invested. In some cases, you may pay less.	None
Exit costs	1.0% of your investment before it is paid out to you. This is the maximum amount. In some cases, you may pay less.	100
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.65%. This is an estimate based on actual costs over the last financial year ended at the end of December 2022. This figure may vary from one financial year to the next.	€65
Transaction costs	0.46% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€46
Incidental costs taken under specific conditions		
Performance fees	We deduct this fee from your investment if the product outperforms its benchmark index (corresponding to 20% (including tax) above the Euro Stoxx Net Dividend Reinvested Index). The actual amount may vary depending on how well your investment performs. The cost estimation below includes the average over the last 5 years. (The period for which this outperformance fee is deducted runs from 1 August to 31 July each year)	€15

How long should I hold the UCI and can I take money out early?

Recommended holding period: 5 years

You can redeem your investment at any time. However, the recommended holding period as shown is intended to minimise your risk of capital loss in the event of redemption before this period, although this does not constitute a guarantee.

How can I complain?

For any complaint relating to the Sub-Fund, subscribers may consult their adviser or contact Ofi Invest Asset Management:

- either by post: Ofi Invest Asset Management - 22 Rue Vernier - 75017 Paris - France
- or by e-mail directly at the following address: contact.clients.am@ofi-invest.com or on the website: www.ofi-invest-am.com.

If you are not satisfied with the response given, you may also refer the matter to the AMF Ombudsman via the following link: www.amf-france.org (mediation section) or write to the following address:

: Médiateur de l'AMF, Autorité des marchés financiers, 17 Place de la Bourse, 75082 Cedex 02.

Other relevant information
