This is a non-contractual document provided for information only. This document is intended solely for unitholders or shareholders in the Fund. The information contained in this document is of no contractual value. Only the Fund's full prospectus and latest financial statements shall be deemed legally binding. Past performance is no guarantee of future performance and is not constant over time. Stated performance includes all fees with the exception of subscription and redemption fees. Investors in this fund are exposed to risks associated with changes in the value of units or shares in the Fund arising from market fluctuations. As such, the value of an investment may rise or fall, and investors may consequently lose some or all of their initial investment. This document is provided for information purposes only and is not intended to be either legally binding or contractual in nature. The investor acknowledges having received a copy of the prospectus filed with the AMF prior to investing. In spite of the care taken in preparing this document, the management company cannot guarantee that the information it contains is accurate, complete and up to date. The company may not be held liable for any losses incurred by investors who base their investment decisions solely on this document. The information in this document may not be reproduced in full or in part without the prior consent of its author. All requests for further information about the Fund should be directed to Ofi Invest Asset Management, 22 rue Vernier, 75017 Paris, France.

Asset management strategy

In the US, the Fed cut its key interest rate by 25 bps to 4.25%, confirming the accommodative pivot outlined in Powell's speech at Jackson Hole. The FOMC members now expect two more rate cuts this year, with rates set to end 2025 at 3.25%. Meanwhile, the ECB unanimously decided to keep interest rates unchanged at 2%, indicating that the economy was resilient overall in a challenging geopolitical environment. On the data front, US GDP in the end rose 3.8% annualised in 2025 (compared with a previous estimate of +3.3%), with economic growth more robust thanks to lower imports and a recovery in consumer spending. The August CPI came in at 2.9% YoY, in line with expectations. In the eurozone, the CPI ultimately came in at 2% in August, while the preliminary read for September came in at 2.2%, in line with expectations. In Asia, the BoJ opted to maintain interest rates unchanged, as expected. While Japan's Q2 GDP growth number was upgraded to 2.2% YoY (vs. 1%), August trade data revealed the negative impact of tariffs: the volume of exports to the US was down 12% YoY. Lastly, in China, the August CPI was down 0.4% YoY.

Against this backdrop, European equity markets continued to gain ground, with the Stoxx 600 up 1.5%, the banking sector up 4% and the US market up 3.5%. In credit, the 5-year Crossover narrowed slightly, down 6 bps to 262 bps, while German 10-year yields stabilised at 2.71%. In currencies, the euro strengthened against sterling (up 0.8%) and the US dollar (up 0.4%). In European convertible bonds, the FTSE Convertibles Europe Focus Hdg (formerly Refinitiv) index in euros fell slightly, down 0.12% in the month, while OFI Invest European Convertible Bond gained 1.48% over the same period.

The European primary market picked up somewhat, with issues totalling €1.6 billion: Deutsche Lufthansa 0% 2032 (€700m; Germany; travel and leisure), Schneider Electric 1.25% 2033 (€875m; France; industrial goods and services) and Exail Technologies 4% Perp Call 30 (€350m; France; industrial goods and services), with the latter's main business being connected with maritime drones. This brings total issues in the year to date to €9.4 billion, 86% higher than in September 2024.

As regards performance, the main negative contributors were Evonik/RAG 2030 (-15 bps), Volvo shares (-11 bps), LEG Immobilien 2030 (-7 bps) and Spie 2028 (-7 bps). Conversely, the positive contributors were Sibanye Stillwater 2028 (+68 bps), Prysmian shares (+32 bps), Exail Technologies Perp Call 30 (+27 bps), Kering/Cara 2030 (+25 bps), Schneider Electric 2030 (+15 bps) and Airbus/Citi 2030 (+11 bps).

In terms of changes, we participated in the primary issues Deutsche Lufthansa 2032 and Exail Technologies Perp Call 30, bought more Schneider Electric via the 2033 issue and sold Deutsche Lufthansa 2025.

Portfolio equity sensitivity was 42% at end September (having risen in line with equity market performance), the current yield was 1.7% for an average maturity of 3.4 years, modified duration was 2.1 and the cash position was 2%.

SCR informations

The aggregate SCR represents the total of all underlying risks. It does not take into account the effects of diversification.

The SCR Market represents the capital requirement taking into account the various risk factors (see correlation matrix arising under regulation n°2015/35).
