Asset management strategy

The minutes of the Fed's January meeting showed that monetary policymakers remained cautious and favoured a restrictive approach to ensure inflation was brought back to its target. These minutes fuelled speculation that the first rate cut would come in June and not before. Meanwhile, the ECB minutes showed that policymakers were confident about the effectiveness of monetary policy but continued to call for caution as to the pace of rate cuts. On the economic front, estimated US Q4 2023 GDP was revised downwards (to 3.2% QoQ, vs. 3.3% estimated) and year-on-year inflation came in at 3.1% in January, vs. 2.9% expected. The European Commission downgraded its 2024 eurozone growth forecast from 1.2% to 0.8%, pointing out that the slowdown in growth would put pressure on inflation. February inflation came out at 2.6% YoY, compared with 2.8% in January and 2.5% expected. In China, the PBoC left its medium-term lending facility rate unchanged but cut its five-year loan prime rate by 25 bps. However, this decision struggled to restore investor confidence in the real estate market and the economy as a whole. Lastly, in Japan, one of the members of the BoJ's Monetary Policy Board said the central bank should consider revising its ultra-accommodative monetary policy. The latest Japanese GDP numbers showed that the economy had contracted in Q4 2023, with Germany becoming the world's third-largest economy ahead of Japan.

In this environment, European equity markets continued to rise, ending the month on a very positive note, with the Stoxx 600 up 2%, the Euro Stoxx 50 up 5% and, in the US, the S&P 500 up 5.2%. In credit, the 5-year Crossover narrowed 20 bps to 306 bps, while German 10-year yields narrowed 24 bps to 2.41%. In currencies, the euro strengthened significantly against the Swiss franc (up 2.6%) and, to a lesser extent, sterling (up 0.4%) but fell slightly against the US dollar (down 0.1%). In European convertible bonds, the Refinitiv Convertibles Europe Focus Hdg index in euros gained 1.49% in the month, while OFI Invest ESG European Convertible Bond gained 1.94% over the same period.

The European primary market was dead in February. Total European issues in the year to date stood at €1.1 billion at the month-end.

As regards performance, the main negative contributors were Société Générale 2024 calls (-14 bps), Sibanye StillWater 2028 (-7 bps; down 9.7%), Veolia 2025 (-6 bps; down 3.1%) and Deutsche Lufthansa 2025 (-5 bps; down 3.5%). Meanwhile, the positive contributors were BE Semiconductor 2029 (+31 bps; up 14.6%), Volvo shares (+30 bps; up 14.1%), GTT shares (+28 bps; up 9.9%), Safran 2028 (+22 bps; up 7.6%), Schneider 2026 (+22 bps; up 9.2%), Prysmian 2026 (+17 bps; up 7.9%) and Mercedes/Barclays 2025 (+9 bps; up 5.6%).

In terms of changes, we participated in the Rémy Cointreau/ORPAR 2031 primary issue and tendered our holding of 2024 exchangeable bonds in response to the company's offer, closed out our position in KPN/América Móvil 2024, sold some Pharming 2025 and bought Glanbia 2027 and Soitec 2025. Lastly, we reduced our equity allocation by reducing our exposure to Volvo and BE Semiconductor and selling off our entire holding of Symrise. At the month-end, the top two SRI categories (Leader and Committed) accounted for 53% of investments and the cash position was 1.3%.

Portfolio equity sensitivity was 38% at end February, the current yield was 1.2%, the yield to maturity was 1.2% for an average maturity of 2.7 years and the modified duration was 1.71.

SCR informations

The aggregate SCR represents the total of all underlying risks. It does not take into account the effects of diversification.

The SCR Market represents the capital requirement taking into account the various risk factors (see correlation matrix arising under regulation n°2015/35).

OFI ESG EUROPEAN CONVERTIBLE BOND GI

Monthly Reporting - février 2024

SRI assesement of the fund*
(Covered part, rebased)

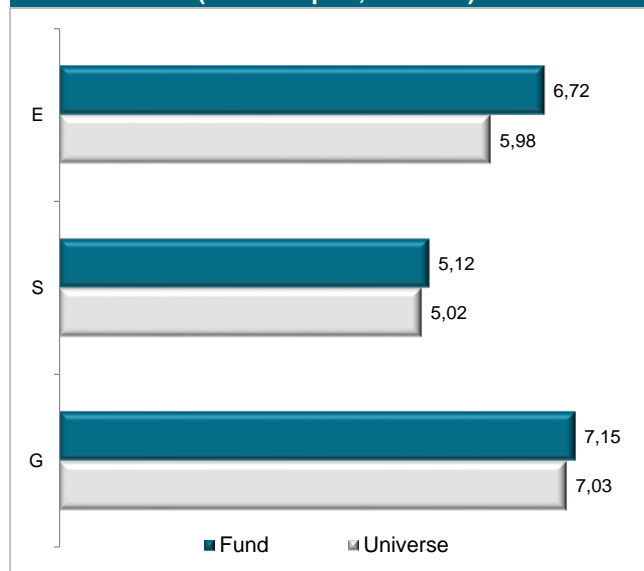

Fund covered to (1) : 100%
Universe covered to : 93.8%

Breakdown by SRI category: under OFI's SRI methodology, corporate issuers are subjected to non-financial analysis based on the key issues facing each sector. Companies are then compared among themselves and classified into five categories.

(1) Whithout cash
Universe : Categ ISR CB EMEA

Scores for each ESG area*
(Covered part, rebased)

Fund covered to (2) : 95.63%
Universe covered to : 91.04%

ESG : Environmental, Social and Governance

(2) Whithout cash

Emissions financed (tCO2eq/€m)
(Covered part, rebased)

Fund covered to (2) : 97.37%
Universe covered to : 93.8%

Emissions financed: emissions generated indirectly by an investor by the companies that investor finances. These are calculated as follows: amount of holding x company's total carbon emissions / company's total liabilities (€m). They are expressed in metric tons of CO2 equivalent per million euros invested.
