

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph of Regulation (EU) 2020/852

Product name : Ofi Invest Biodiversity Global Equity Legal entity identifier: 213800QGZ58ECLE39I70

## **Environmental and/or social characteristics**

Sustainable investment means an investment an economic activity that contributes to an environmental or social objective, provided that the . investment does not significantly harm any environmental 0 social objective and that the investee companies follow good governance practices.

The EU Taxonomv is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this mancial product have a sustainable investment objective?						
• C Yes	● ○ 🛛 No					
□ It made sustainable investments with an environmental objective : %	□ It promoted Environmental/Social (E/S) characteristics and while it dit not have as its objective a sustainable investment, it had proportion of % of sustainable investments					
☐ in economic activities that qualify as environnementally sustainable under the EU Taxonomy	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy					
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy					
	☐ with a social objective					
□ It made sustainable investments with a social objective : %	It promoted E/S characteristics, but <b>did not make</b> any sustainable investments					

## To what extent were the environmental and/or social characteristics promoted by this financial product met ?

Ofi Invest Biodiversity Global Equity (the « **Sub-Fund** ») promoted environmental and/or social characteristics through two systematic approaches :

- 1. Normative and sectoral exclusions ;
- 2. A set of ESG requirements ;
- 3. SRI rating on Biodiversity.

Indeed, the Sub-Fund followed a Best-in-Universe approach, excluding 30% of securities which do not have the best sustainable and socially responsible investment ratings compared to other securities and companies belonging to the last quintile (Q5) as defined by the Biodiversity score, determined by the management company. The Sub-Fund's portfolio was always made up and up to a minimum of 70% (in securities) of securities which carried out : high pressure in the first quintile, medium pressure in the first two quintiles, low pressure in the first three quintiles.

### How did the sustainability indicators perform ?

As of December 29, 2023, the performance of the sustainability indicators used to measure the Sub-Fund's environmental and social performance is as follows :

- **Biodiversity score** : the biodiversity score of the Sub-Fund calculated in the process of the investment strategy was **7,47** ;
- SRI score : the SRI score of the portfolio has reached 3,35 out of 5 and the SRI score of its universe has reached 2,84 ;
- The percentage of investee companies falling in the exclusion criteria of the companies "undersurveillance" as per Best-in-Universe approach : 30%.
- The percentage of the portfolio belonging to each quintile defined by the Biodiversity scoring :
  - Q1 : 16,79%;
  - Q2:63,11%;
  - Q3 : 17,82%;
  - Q4:1,02%;
  - Q5 : 0%.

Therefore, at least 70% of the Sub-Fund's assets belonged to companies who exerted high pressure in the Q1, exerted medium pressure in the first two quintiles and exerted low pressure in the first three quintiles.

The monitoring of the above-mentioned indicators in the management tools makes it possible to affirm that there were no significant variations in the performance of the indicators throughout the reporting period considered, between January 1<sup>st</sup>, 2023, and December 29, 2023.

For more information on these sustainability indicators and their calculation method, please refer to the Sub-Fund's prospectus and its precontractual annex.

### • ... and compared to previous periods ?

This annex to the annual report containing periodic information for the Sub-Fund in accordance with Delegated Regulation (EU) 2022/1288 supplementing the SFDR Regulation is the first to be published.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human anticorruption rights, antibribery and matters

## How did the sustainable investments not cause significant harm to any sustainable investment objective ?

Not applicable.

- How were the indicators for adverse impacts on sustainability factors taken into account ?

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business Human Rights ? Details :

The EU Taxonomy sets out a "do not significant harm" principe by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do not significantly harm" principle applies only to those investiments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors ?

## What were the top investments of this financial product ?

As of December 29, 2023, the Sub-Fund's main investments were as follows :

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period.

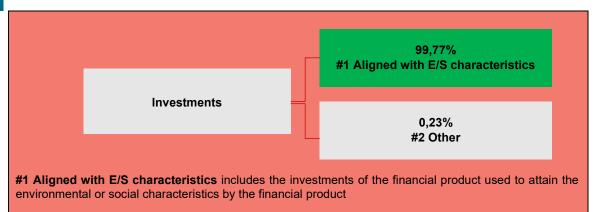

MICROSOFT CORP	6,35%	United States	Information Technology
NVIDIA CORP	2,98%	United States	Information Technology
MERCK & CO INC	2,98%	United States	Health Care
KURITA WATER INDUSTRIES LTD	2,75%	Japan	Industrials
NOVO NORDISK CLASS B	2,33%	Denmark	Health Care
TESLA INC	2,27%	United States	Consumer Discretionary
XYLEM INC	2,18%	United States	Industrials
WASTE MANAGEMENT INC	2,08%	United States	Industrials
APPLIED MATERIAL INC	2,01%	United States	Information Technology
SALESFORCE INC	1,89%	United States	Information Technology
RENESAS ELECTRONICS CORP	1,79%	Japan	Information Technology
WORKDAY INC CLASS A	1,78%	United States	Information Technology
ECOLAB INC	1,71%	United States	Materials
CRH PUBLIC LIMITED PLC	1,68%	Ireland	Materials
NIKE INC CLASS B	1,68%	United States	Consumer Discretionary

### What was the proportion of sustainability-related investments ?

#### Asset allocation describes the share of investments in specific assets.

### What was the asset allocation ?

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

As of December 29, 2023, the Sub-Fund had **99,77%** of its net assets investments promoting environmental and social characteristics (#1 Aligned with E/S characteristics).

The Sub-Fund had **0,23%** of its net assets investments were neither aligned with the environmental and social characteristics, nor are qualified as sustainable investments #2 Other. These investments consisted of :

- 0,23% of cash or cash equivalent ;
- 0% of derivatives ;
- 0% of equity securities in the portfolio which may not be subject to an ESG or SRI rating.

The Fund has therefore complied with the planned asset allocation :

- A minimum of 90% of the Fund's investments belonging to pocket #1 Aligned with E/S characteristics pocket;
- A maximum of 10% of its investments belonging to #2 Other, including equity securities which may
  not be subject to an ESG or SRI rating, cash and/or cash equivalent held for liquidity purposes or
  derivatives.

#### In which economic sectors were investments made ?

As of December 29, 2023, the sectoral breakdown of invested assets was as follows :

Information Technology	26,37%
Industrials	14,20%
<b>Consumer Staples</b>	12,73%
Health Care	12,60%
<b>Consumer Discretionary</b>	8,78%
Financials	8,42%
Materials	7,97%
Communication Services	2,83%
Utilities	2,56%
Energy	2,48%
None	1,06%

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy ?

As of December 29, 2023, the proportion of sustainable investments with an environmental objective aligned with the Taxonomy in the portfolio was nul.

To comply with the EU

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

#### Transactional

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse levels corresponding to the best performance.

## • Did the financial product invest in fossil gas and/or nuclear energy relatid activities complying with the EU Taxonomy<sup>1</sup>?

#### □ Yes

□ In fossil gaz □ In nuclear energy

#### 🛛 No

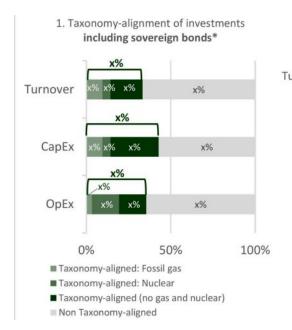

#### Taxonomy-aligned activities are expressed as a share

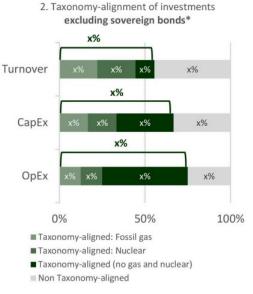

of turnover reflecting the share of revenue from green activities of investee companies. - capital expenditure (CapEx) showing the investments green by investee made companies, e.g., for a transition to a green economy - operational expenditure (OpEx) reflecting green operational activities

of investee

companies

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of severeign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bons, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

This graph represents x% of the total investments.

\* For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures.

#### What was the share of investments made in transitional and enabling activities ?

As of December 29, 2023, the proportion of investments in transitional and enabling activities in the portfolio was nul.

## How did the percentage of investments that were aligned with the EU Taxonomy compare with the previous reference periods ?

As of December 29, 2023, the proportion of investments aligned with the Taxonomy remained null.

<sup>&</sup>lt;sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

sustainable investments with an environmental objective that do not take into account the criteria for environmentaly sustainable economic activities under Regulation (EU) 2010/852.

Are

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy ?

Not applicable.

Not applicable.

# What investments were included under « other », what was their purpose and were

These investments consisted of :

- cash and/or cash equivalent ;
- derivatives ;
- equity securities which may not be subject to an ESG or SRI raiting.

What was the share of socially sustainable investments?

there any minimum environmental or social safeguards ?

Although this category does not have an ESG rating and no minimum environmental and social guarantees have been put in place, its use has not significantly or permanently altered the environmental and/or social characteristics promoted by the Sub-Fund.

## What actions have been taken to meet the environmental and/or social characteristics during the reference period ?

In order to comply with the environmental and/or social characteristics during the reference period, all ESG data were made available to the managers in the management tools and the various ESG requirements were set and monitored in these same tools.

How did this financial product perform compared to the reference benchmark ?

Not applicable.

How did the reference benchmark differ from a board market index ?

Not applicable.

• How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted ?

Not applicable.

How did this financial product perform compared with the reference benchmark ?

Not applicable.

How did this financial product perform compared with the broad market index ?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or

social characteristics that they promote.
